

West Georgia Internal Medicine
Insurance Policy

Effective January 1, 2013, any patient with insurance that cannot be verified or that could possibly be Point of Service (POS) insurance coverage must sign this agreement taking responsibility for any balance not covered by their insurance. If we are not able to verify whether your insurance is a POS or PPO, we do not know if your insurance will cover your lab work in our office. We make every attempt to verify insurance when provided with current insurance information in order for the patient to receive the best benefits payable by their insurance.

Please fill out the information below if you would like to continue with treatment and lab work in our clinic with the understanding that we may have not been able to verify your insurance coverage. After your insurance has been filed, you will receive a bill for any balance that was not covered by your insurance carrier.
